

Unlock Your Greatest Decision-Making Asset: Data

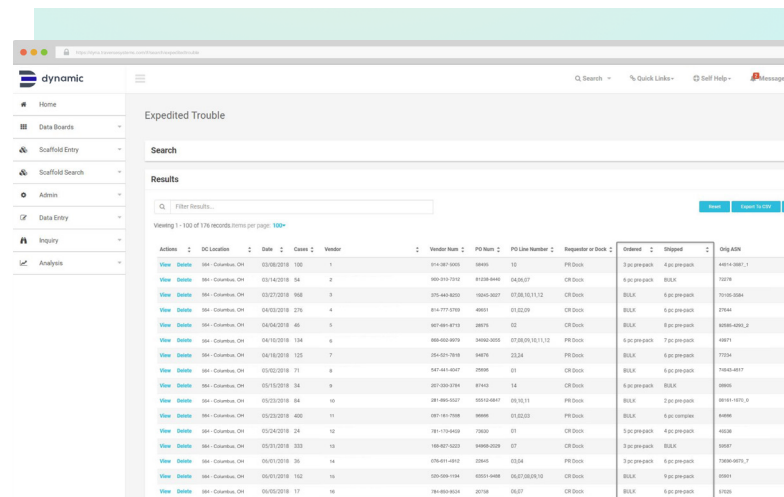

Scaffold alleviates and streamlines manual data-entry, and sharing across the entire enterprise so you can get more done, faster.

OVERVIEW

Every organization wastes precious time and energy creating and managing shared spreadsheets or log sheets. Manual data entry, versioning, collaboration, and a lack of data standardization cause bottlenecks and missed opportunities. No matter how robust, software systems can't account for every process or every situation. Valuable data often gets lost in the shuffle.

Meet Scaffold. Scaffold is a customizable data-entry tool designed to formalize unstructured business processes and scale actionable information across the entire enterprise. Scaffold gives Traverse users greater control over their data and allows them to share information with stakeholders and decision-makers across departments, distribution centers, and offices in an instant.

Data-driven organizations leverage Scaffold to help their teams take effective, coordinated action and make strategic decisions based on common information. No more manual filtering, mismatched data formats, multiple Excel versions, or entire departments in the dark.

The screenshot shows a web application interface with a sidebar menu on the left containing items like Home, Data Boards, Scaffold Entry, Scaffold Search, Admin, Data Entry, Inquiry, and Analysis. The main content area is titled 'Expedited Trouble' and features a search bar and a table of results. The table has columns for Actions, DC Location, Date, Count, Vendor, Vendor Name, PO Item, PO Line Number, Requester or Stock, Status, Shipped, and Qty. The table contains 16 rows of data.

Actions	DC Location	Date	Count	Vendor	Vendor Name	PO Item	PO Line Number	Requester or Stock	Status	Shipped	Qty

Build your own data screens to solve unique business problems, save time by automatically connecting and validating PO information, easily assign tasks and take action across departments, and get more out of the data your organization already collects.

The opportunities are limitless. Get started today with a free trial.

Contact Kevin Harris for more information at kevin.harris@traversesystems.com or 281-352-2134.

Key Benefits:

- ✓ Easily share custom data entry forms in standardized data formats across the enterprise
- ✓ Avoid common data entry frustrations with auto-population from existing data streams
- ✓ Reduce or eliminate email traffic, spreadsheet versioning, and data loss
- ✓ Disseminate critical information across the enterprise through inquiry screens or exports
- ✓ Access data forms around the clock via desktop, web, and mobile platforms

Scaffold Is Free For 90 Days
